1.INTRODUCTION:

1.1 Overview:-
My website is based on the theme "Entertainment Domain" . I created this using the wordpress and hosted in Godaddy. My website name is "Video World!!".My website contains the Gameplay's of most played games so that the Audience can have fun and enjoy the content I have uploaded.

1.2 Purpose:-
The main reason behind creating my website is to make the audience enjoy my youtube content in my website too. This contains the most played video games Gameplay's.

# 2.LITERATURE SURVEY:

2.1 Existing problem:-
There was a main problem in my website before hosting in godaddy,It was I couldn't migrate my website from localhost to godaddy.

2.2 Proposed solution:-
When I was having the problem with migrating from localhost to godaddy, I used All-In-One-Migration plugin in wordpress and exported my project file into harddrive and imported it into the godaddy wordpress.Then my problem was resolved.

3 THEORITICAL ANALYSIS:

3.1 Block diagram:-

```
┌─────────────────┐
│ Video World!!   │───────────┐
└─────────────────┘           │
        │                     │
        ▼                     ▼
┌─────────────────┐   ┌─────────────────┐
│ Homepage        │   │ Others Pages    │
└─────────────────┘   └─────────────────┘
        │                     │
        ▼                     ▼
┌─────────────────┐   ┌─────────────────┐
│ All Gameplay's  │   │ Fortnite        │
└─────────────────┘   └─────────────────┘
                              │
                              ▼
                      ┌─────────────────┐
                      │ Grand Theft     │
                      │ Auto V          │
                      └─────────────────┘
                              │
                              ▼
                      ┌─────────────────┐
                      │ Free fire-Battle│
                      │ Royale          │
                      └─────────────────┘
                              │
                              ▼
                      ┌─────────────────┐
                      │ Pokemon Let's   │
                      │ Go Pikachu      │
                      └─────────────────┘
```
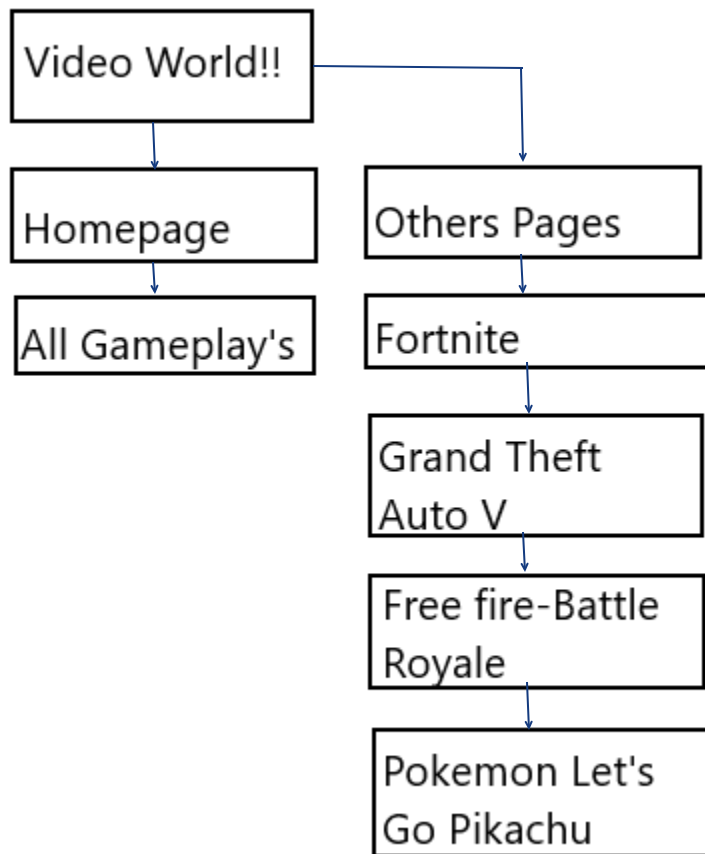

3.2 Hardware/Software designing:-

I designed my whole website using the wordpress software. In that I used elementor page builder for creating and editing web pages and various plugin's for good maintainance of the website.I used Music and Video free theme which made my work easy.

4 EXPERIMENTAL INVESTIGATIONS:

My whole knowledge on the wordpress and hosting it in godaddy is based on the three day Godaddy Web-A-Thon organised by smartinternz guys in collabaration with godaddy officials.

5 FLOWCHART:

```
┌─────────────────┐
│ Video World!!   │──────────────┐
└─────────────────┘              │
        │                        │
        ▼                        ▼
┌─────────────────┐    ┌─────────────────┐
│ Homepage        │    │ Others Pages    │
└─────────────────┘    └─────────────────┘
        │                        │
        ▼                        ▼
┌─────────────────┐    ┌─────────────────┐
│ All Gameplay's  │    │ Fortnite        │
└─────────────────┘    └─────────────────┘
                                 │
                                 ▼
                       ┌─────────────────┐
                       │ Grand Theft     │
                       │ Auto V          │
                       └─────────────────┘
                                 │
                                 ▼
                       ┌─────────────────┐
                       │ Free fire-Battle│
                       │ Royale          │
                       └─────────────────┘
                                 │
                                 ▼
                       ┌─────────────────┐
                       │ Pokemon Let's   │
                       │ Go Pikachu      │
                       └─────────────────┘
```

6 RESULT:
Atlast I created a website in wordpress on the theme entertainment and hosted in Godaddy hosting.

7 ADVANTAGES & DISADVANTAGES

Advantages:
The use of my website is people can enjoy the entertainment content i.e Gameplay's of most played Games.People can freely enjoy my content without any interuption.
Disadvantages:
The main disadvantage of this website is that there is very limited content flowing in my website.So that people will not stick to my website all the content has been already enjoyed by them.

8 APPLICATIONS:
My website is based on the Entertainment Domain.People can come to my website and have fun watching my content which is about the videos of gameplay's of the most played games and popular games.

9 CONCLUSION
My website is created in wordpress and hosted in Godaddy with the free one month hosting coupon given by godaddy.This website is About the Entertainment theme.Come and have fun watching content in my website.

10 FUTURE SCOPE
At present my website has a limited content but in future I will upload more fun content into my website so people can come and have unlimited fun here in my website.

11 BIBILOGRAPHY
1. Used Wordpress Software for my website
2. My website : All Gameplay's - Video World!! (myftpupload.com)
